

Say Hello to Jade.

Jade is 13 years old. She is planning on travelling the world and studying law at Uni when she leaves school.

Jade's Mum Lisa, has been operating **Lisa's Place** in NSW for as long as Jade can remember!

What are some of the benefits of your Mum being a Family Day Care Educator?

I always get to meet new kids and play with them. I sometimes do craft or go on excursions with them when I'm on holidays.

I find having Mum working from home helpful because she can always pick me up from school. She is always at home before I leave for school and I always get to see her as soon as I come home.

Have you stayed in touch with any of the children that have attended Lisa's Place with you?

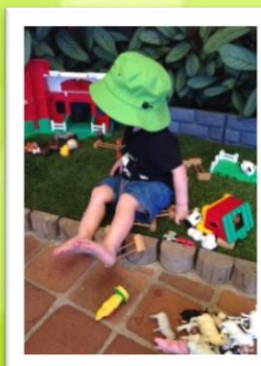

One of the girls, Ella, moved overseas. We are friends on Instagram. Whenever she comes out here, we always take time to catch up with her and some our other friends from Mum's Day Care.

After the children leave, we still stay in contact with them and sometimes catch up.

A word from Lisa ...

I love doing Family Day Care. Being able to have my own children in care was great. I was able to watch them grow and develop, and make new friends. When they headed to preschool, school and high school, I have had the flexibility and the opportunity to attend carnivals and assemblies with all the children.
