

# Introducing

## *Sarah Westworth*

Field Consultant – Tasmania and Victoria

I am the Field Consultant for Victoria and Tasmania. I have been with HAFDC for 1 year in July, and since starting my role has grown and changed greatly! Our team is growing very rapidly and I am incredibly lucky to be able to support and visit educators all over these 2 beautiful states! Our Educators in the southern states provide such warm, loving and beautiful services. I am truly blessed to be a part of their journey.

I have 15 years experience in the early childhood sector, mainly in LDC and sessional Kindergartens. I have a Diploma of Children's Services which I obtained in 2012. I live with my partner Adam and together we have my 2 sons who are 4 and 6, and his 2 daughters who are 10 and 3. I'm very family focused and have a big extended family who we love to spend time with! I play netball a few times a week to keep fit, and enjoy watching AFL. I love cooking with the children and exploring our local community!

I believe very strongly in my role to empower, respect and guide Educators to evolve and grow to their full potential. I feel my role as Field Consultant is to offer the support and guidance to ensure each Educator feels comfortable and valued.

I love visiting Educators, getting to know the children in care and also the excitement when the children remember who I am! I love building relationships with Educators and watching them interact with children, learning each and every day what it means to provide a loving and caring environment to each and every child. I

I definitely look forward to the conferences and Consultant forums. I am looking very forward to 2017's conference where there will be many more Educators from Victoria, as well as all Tasmanian Educators! I can't wait to be all together as a big team!

I love getting on the floor with the children and sharing stories with them. If I am lucky enough to meet parents when I am on visits, I enjoy sharing a little story about their child, or telling them what their child has been up to. I am friendly, open and caring. I feel I am very approachable and caring towards every person I met and I am very much a people person!

love nothing more than watching children grow right in front of my eyes, always noticing something new they have learnt since my last visit. I also love a baby cuddle or two!!

I love nothing more than walking into an Educator's service and hearing the children say, 'Sarah it's so lovely to see you'.

Children always have stories to tell and I love when they save them just to tell me!

My goals are to continue growth, not only in Educators and more zones across my states but more networking with Educators and growth in a team sense.

I am also looking forward to personal growth with my own knowledge and understanding of FDC and Early Childhood in general.
